

JORDAN SHEARS

Developer & UX Designer — React • WordPress • React Native • Figma

📞 +27810537147 @ Email 🔗 LinkedIn Profile 📍 Cape Town

SELECTED PROJECTS

AutoDealer — React, Figma

Designed and built a vehicle marketplace front end: inventory filtering, SEO routing, infinite scroll, Ad Manager integration.

Compleat Golfer Tours — WordPress, PHP, MySQL

Custom theme and plugin built from scratch, with a third-party destination API powering a new product line.

CARmag Club — React Native

Feature development and visual redesign on a cross-platform mobile app.

Club Daddy — Figma

App experience for browsing a deals catalogue, structured to convert browsers into subscribers.

Bona Magazine — Figma, WordPress, PHP

Designed the redesign and built the custom theme to spec.

Me2Crypto — WordPress, PHP, WebSocket

Custom theme and plugin system with a live cryptocurrency price feed.

EXPERIENCE

Junior Developer & UX Designer

Habari Media

📅 12/2024 - Present 📍 Cape Town, South Africa

- Build and maintain React web applications and React Native mobile apps for publishing clients.
- Design interfaces in Figma and build them out as responsive, standards-compliant templates.
- Build custom WordPress themes and plugins in PHP and MySQL; integrate third-party APIs and implement technical SEO across live production sites.
- Deploy via FTP and SSH on Linux hosting (ISPConfig); work with editorial, design and client stakeholders from brief through to release.

Digital AI Intern

Habari Media

📅 12/2023 - 12/2024 📍 Cape Town, South Africa

- Developed features for web and mobile applications in React and React Native, and prototyped interfaces in Figma.
- Implemented UI/UX improvements driven by user research and usability testing.
- Contributed to WordPress site and plugin builds.

EDUCATION

UI/UX Web Design

Academy of Digital Arts

📅 01/2023 - 11/2023 📍 Cape Town, South Africa

- (Higher Certificate)

Mobile Application & Web Development

IIE's Varsity College

- (Higher Certificate)

High School

Spine Road High School

📅 01/2017 - 12/2021 📍 Cape Town, South Africa

- (Matric)

SUMMARY

Developer and UX designer with two years of commercial experience taking products from research and wireframes through to shipped code. Works across React front ends for high-traffic publishing sites, cross-platform mobile apps in React Native, and custom WordPress themes and plugins built from scratch in PHP and MySQL. That dual lens — designing the interface and then building it — means usability problems get caught before they become tickets.

LANGUAGES

English
